

KNOW BEFORE YOU GO

Your guide to Brazil, Manaus & Ecolodge

ecolodge
DA BARRA

INTRO

This guide is designed to help you prepare for your fishing adventure at Ecolodge da Barra, located in the heart of the Amazon rainforest and home to over 20 species of sport fish.

Long before you board your flight to Brazil, however, there are several essential details to arrange to ensure your trip is a seamless and unforgettable experience, free from unexpected setbacks.

To make things as easy as possible, this material will walk you through a clear, chronological checklist of all the mandatory documents, permits, and gear you will need to make the absolute most of your stay with us.

1. BEFORE YOU TRAVEL

1.1 - Passport, VISA & Entry Requirements

International travelers are responsible for ensuring they meet all current requirements for entering Brazil.

Before departure, every guest should have in hands:

- ***Valid passport***
- ***Visitor Visa (VIVIS)***
- ***Airline boarding requirements***
- ***Requirements for minors, if applicable***

Traveling with minors (under 18)

If a minor is traveling with only one parent, a legal guardian, or a third party (such as grandparents or family friends), they must present a **Notarized Letter of Consent** signed by the absent parent(s) authorizing international travel to Brazil.

Passport

Passport Validity: Your passport must be valid for at least six (6) months beyond your planned date of departure from Brazil, with at least two blank pages available.

VISA

- **Visa Category:** Visitors travelling for tourism or sport fishing require a Visitor Visa (VIVIS).

- **US, Canadian & Australian Citizens:** You must obtain an **e-Visa** prior to boarding your flight. The application process is 100% online and should be completed at least 20 days before departure via the official government portal (*brazil.vfsevisa.com*).

- **EU & UK Citizens:** Visas are currently not required for stays under 90 days.

- **Other Nationalities:** Please check with your local Brazilian Embassy or Consulate regarding entry requirements for your specific passport.

Important Notice: *Immigration policies and entry requirements are subject to change by the Brazilian government at any time. While we make every effort to keep this guide strictly up to date, we strongly advise you to independently verify the latest visa regulations with your local Brazilian Embassy or Consulate well in advance of your departure.*

Airline boarding requirements

Please note that airlines enforce their own boarding protocols at the check-in counter to comply with international regulations. Before boarding, you may be required to present:

- **Proof of Return Travel:** A confirmed return or onward flight ticket proving you intend to leave Brazil within your permitted visa timeframe. Airlines will often deny boarding without this documentation.

- **Transit Country Regulations:** If your flight itinerary includes a layover in another country (such as Panama or Colombia), please verify their specific transit requirements. Some transit hubs strictly require a Yellow Fever vaccination certificate to allow you on board.

- **Fishing Gear Policies:** Always check your specific airline's rules regarding oversized baggage. Sports equipment fees and maximum length limits for fishing rod tubes may vary between carriers.

1.2 - Health & Vaccinations

Sport fishing in the Amazon for extended periods can be **highly physically demanding**. The combination of a tropical climate, long days on the water, and the stamina required to battle strong sport fish requires a reasonable level of physical fitness.
We **strongly advise** all guests to consult their primary physician for a general health evaluation before embarking on this journey.

Pre-existing conditions & prescription medications

If you have a pre-existing medical condition and take regular medication, please ensure you bring an adequate supply for your entire trip, as accessing specific drugs in remote areas is challenging.

- **Restricted Substances:** Some medications that are widely prescribed in other countries (such as certain ADHD stimulants or cannabis-based products) may be heavily restricted or strictly prohibited from entering Brazil. We strongly advise checking with your local **Brazilian Consulate** or the **Brazilian Health Regulatory Agency (ANVISA)** prior to travel to confirm your specific medication is permitted.

- **Clearing Customs:** Always pack your medications in your carry-on luggage in their original, clearly labeled packaging. You must carry a valid medical prescription (preferably in English) bearing your name and the dosage. This is a mandatory requirement to clear airport customs without having your medication confiscated.

BEFORE YOU TRAVEL *(cont.)*

- **Purchasing Medicine in Brazil:** Please be aware that **foreign medical prescriptions are not legally accepted in Brazilian pharmacies** for controlled substances (including antibiotics). To ensure your peace of mind, we provide all our guests with access to a 24/7 nationwide telemedicine network. If you anticipate needing a prescription refill or medical support for a specific condition during your trip, please **notify us in advance** — preferably via your registration form. This allows us to promptly arrange a remote consultation with a licensed Brazilian doctor to issue any necessary local prescriptions.

Yellow fever vaccination

While the Yellow Fever vaccination is not legally required by the Brazilian government, it is **highly recommended by the World Health Organization** (WHO). Because our lodge is located in a remote, untouched area of the Amazon rainforest, we consider this vaccination **absolutely indispensable** for your safety.

Please note that the vaccine must be administered at least 10 days prior to your departure to be fully effective.

1.3 - Fishing Permit

Sport fishing in the Amazon requires specific state-issued environmental permits, which are strictly enforced by local authorities. Because our lodge is located at the border of three different states (Amazonas, Pará, and Mato Grosso), but operates primarily in the state of Amazonas, we request that all guests obtain their fishing permit through IPAAM (Amazonas Environmental Protection Institute).

To obtain your fishing permit, simply click on the following link below and follow the steps:

https://sistemas.ipaam.am.gov.br/carteira-pesca/cadastro-usuario?foreign=true

1.4 - Complete Packing List

Packing correctly makes an enormous difference in the Amazon. The goal is to travel relatively light while having everything you need for long days of fishing in a hot, humid and sometimes wet environment. Laundry services are provided every day at the lodge to help with packing light.

BEFORE YOU TRAVEL *(cont.)*

Clothing

- 2~3 lightweight long-sleeve
- 2~3 lightweight quick-drying fishing pants
- Sun gloves
- Comfortable lodge clothing
- Underwear and socks
- Lightweight rain jacket
- Fishing hat
- Buff or sun gaiter
- Comfortable fishing shoes
- Sandals or casual shoes for the lodge

We highly recommend UPF 30+ protection for all fishing apparel.

Personal items

- High-SPF sunscreen
- Insect repellent (available for purchase at the lodge)
- Sunglasses
- Personal toiletries (we provide individual shampoo, conditioner and soap kits at the lodge)
- Prescription medications
- Personal first-aid items
- Lip balm with SPF
- Phone charger and charging cables
- Type N power adapter
- Waterproof or dry storage for electronics

Essencial travel items

- Passport
- Visa documentation
- Airline itinerary
- Ecolodge da Barra itinerary
- Fishing permit issued by IPAAM (item 1.3)
- Travel insurance information (we provide full travel insurance free of charge for all our guests)
- Emergency contact information
- Cash for gratuities and additional expenses (i.e. souvenirs, extra meals in Manaus)
- Copies or digital backups of important documents

1.5 - Drone Registration

Flying a drone over the Amazon yields breathtaking footage, but bringing one into Brazil requires strict compliance with our National Civil Aviation Agency (ANAC). To avoid having your equipment confiscated by customs at the airport, please review our national drone categories carefully.

Drones under 250g (i.e. DJI Mini - 249g)

If you own a micro-drone weighing less than 250g at takeoff (such as the DJI Mini series), you are in luck. As long as it is used strictly for recreational purposes and flown within your visual line of sight (up to 120m/400ft high), it is exempt from formal government registration. This is the safest and most hassle-free option for international travelers.

Drones over 250g

Any drone weighing 250g or more (such as the DJI Mavic or Phantom series) is strictly regulated and legally required to be registered in the Brazilian aviation system, known as SISANT.

The SISANT challenge for foreigners

Here is the catch for international guests: the SISANT online portal requires a Brazilian Tax ID (CPF) and a national Gov.br account to log in and register the equipment. As a foreign tourist without Brazilian documents, you cannot legally register a drone over 250g on your own. Bringing unregistered heavy drones may result in the equipment being permanently retained by customs upon your arrival in Brazil.

If you wish to bring a drone over 250g, please let us know in advance so we can arrange the proper SISANT registration.

1.6 - Local Currency & Language

Language

A common misconception among international travelers is that Brazilians speak Spanish. Brazil is actually the only Portuguese-speaking country in South America. While the two languages share roots and look similar on paper, their pronunciation and vocabulary are entirely different. The vast majority of Brazilians do not speak Spanish. A friendly “Obrigado” (Thank you) will get you much further than a “Gracias”!

According to the British Council, only about 5% of Brazilians speak English. While most hotel staff will speak English, you can find our recommendations for venues in Manaus with bilingual service in **Section 2.4** of this guide. We also highly recommend downloading a Portuguese offline language pack on your preferred translation app before arriving in Manaus.

BEFORE YOU TRAVEL *(cont.)*

Local currency

The official currency in Brazil is the Brazilian Real (BRL / R$). Over the past 12 months, the exchange rate has remained relatively stable, averaging between R$ 5.00 and R$ 5.50 for every $1.00 USD.

Cards over cash

We strongly advise against carrying large amounts of cash. Credit and debit cards (particularly Visa and Mastercard) are widely accepted at almost all establishments in Manaus. Relying on cards is the safest and most convenient way to travel, as finding exact change for large bills can be challenging.
Apple Pay/Google Pay are widely used and accepted virtually everywhere in Brazil. This is often the smoothest way to pay, especially for US cards that do not use a PIN system.

International activation & prepaid cards

Before your departure, please ensure you contact your bank to authorize international transactions on your cards.
Alternatively, utilizing a prepaid travel card is an excellent and secure option for your trip.
If a credit card terminal asks whether you want to be charged in your home currency (USD/CAD/AUD) or in Reais (BRL), **always choose BRL**. Choosing your home currency triggers "Dynamic Currency Conversion," which applies a very poor exchange rate. Let your own bank handle the conversion.

2. WHEN IN MANAUS

2.1 - Climate & Weather

The Amazon Basin features an intense, unforgiving equatorial climate. It is essential to arrive mentally and physically prepared for extreme heat and constant moisture.
Hydration is mandatory! In this environment, dehydration sneaks up on you quickly. You must drink water constantly throughout the day, long before you actually feel thirsty.

The heavy humidity

Manaus operates at an average relative humidity of 80% to 90% year-round. If you are not accustomed to deep tropical environments, the air will feel noticeably heavy. It is completely normal for breathing to feel slightly more laborious during your first 24 to 48 hours as your body acclimates to the moisture-dense air.

Sudden showers

Rainforest weather is notoriously unpredictable. Even on completely cloudless days, heavy rain showers can materialize seemingly out of thin air. These intense downpours usually last 20 to 30 minutes before the blazing sun returns. Always keep your lightweight rain jacket accessible.

August to November (peak dry season)

These are the hottest and driest months of the year. Expect daily ambient highs around 95°F (35°C) or above. However, the extreme humidity pushes the "feels-like" temperature (heat index) well over 105°F (40°C).

December to March (transition season)

As the region transitions toward the rainy season, ambient temperatures drop slightly, averaging highs around 88°F (31°C). The trade-off is a much higher frequency of sudden rainstorms. The humidity remains absolute, meaning you will sweat just as much.

2.2 - Private Ground Transfers

Arrival at Manaus

Upon landing at Manaus International Airport (MAO) and clearing customs, our team will be waiting for you. Look for our staff member in the arrivals hall holding an Ecolodge da Barra sign. For easy identification, our representative will be wearing our official branded shirt and cap. From the airport, our private transfer service will take you directly to your hotel so you can relax after your flight.

Heading to the lodge

On the morning of your scheduled charter flight to the lodge, our driver will meet you in the hotel lobby right after breakfast, typically around 7:30 AM. We will handle your fishing gear and luggage, transferring you directly to the terminal for your outbound flight to the lodge.

Returning from the lodge

Due to unpredictable Amazon weather conditions and remote boarding logistics, the exact arrival time of our return charter flight to Manaus can fluctuate. To ensure you do not miss your connection, it is mandatory that your international departing flight from Manaus is **scheduled no earlier than 3:30 PM** (Manaus local time).

Next-day departures

If you prefer to spend an overnight in Manaus (free of charge) to rest before traveling home, our private transfer will take you from the airport to your hotel upon your return from the lodge. The following day, a final private transfer will pick you up at your hotel and take you to the airport for your international departure.

Note: If you prefer stay the overvnight in Manaus, please contact our team or your travel agent to arrange it.

2.3 - About the Hotel

Our partner hotel in the city is Mercure Manaus. Your fishing package includes **two complimentary nights** in a standard double bedroom.

Upgrades and extra nights

If you prefer a single-occupancy room, a room upgrade, or wish to extend your stay with additional nights in Manaus, you are more than welcome to do so. You will only be responsible for covering the price difference.

Please note that all upgrades and extended stays are strictly subject to hotel availability. To ensure we can accommodate your request, please inform our team or your travel agent as early as possible so we can seamlessly arrange your booking.

Early breakfast

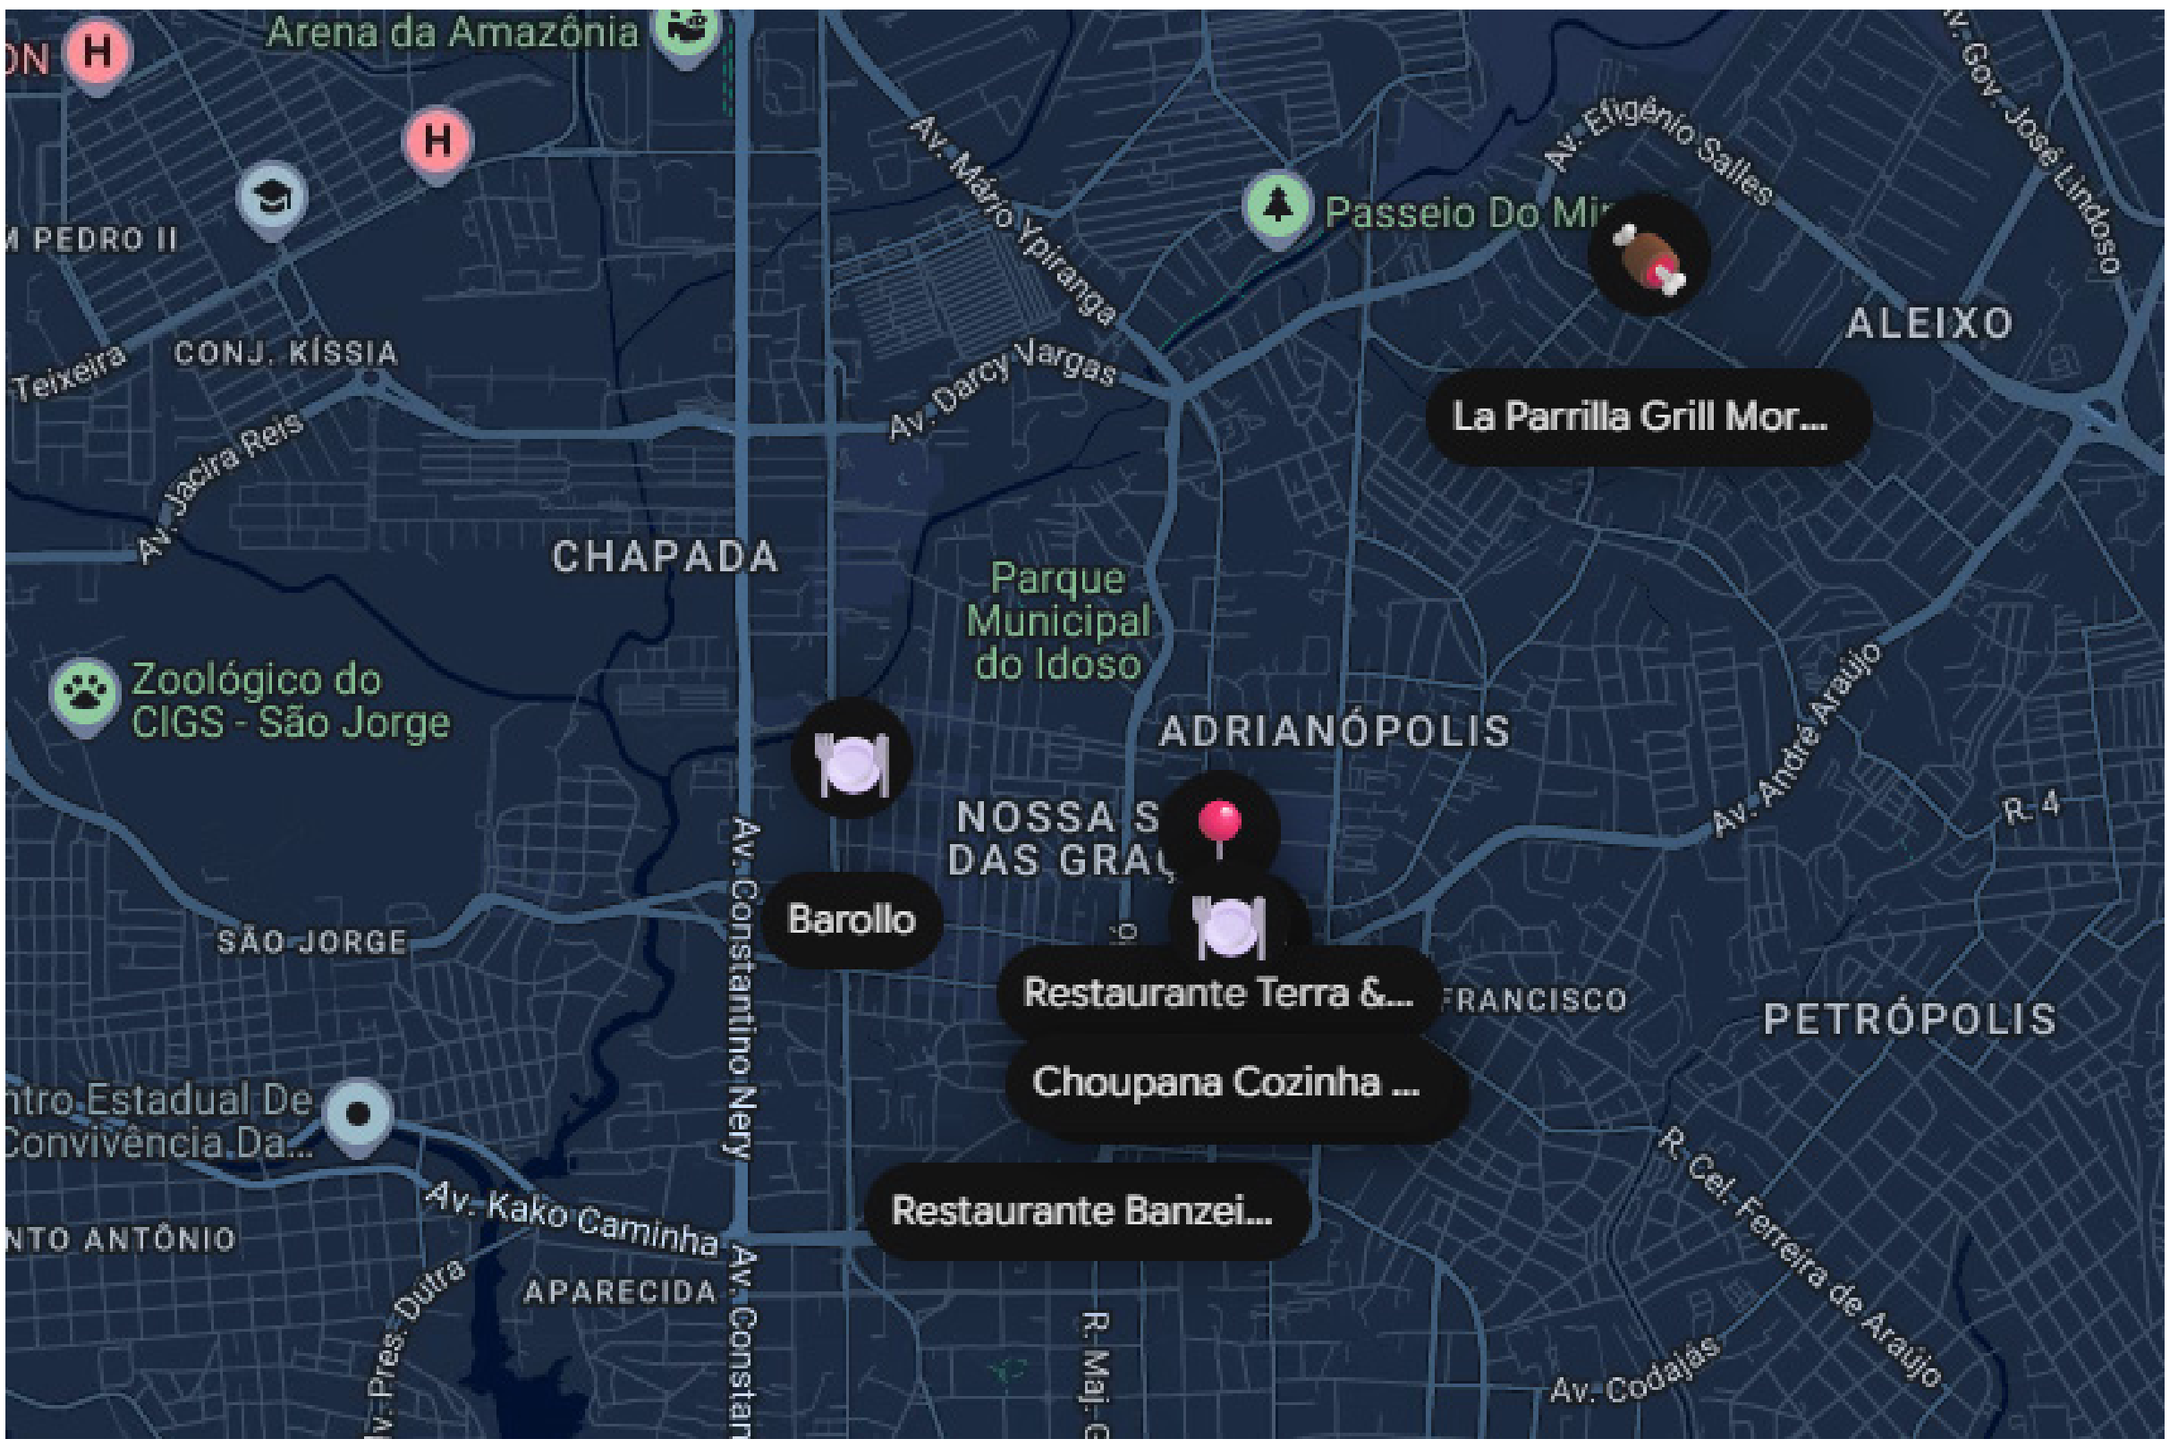

Since the transfer departs the hotel at 7:30 AM, we have made special arrangements with the hotel to accommodate our guests' schedule. An early breakfast will be available exclusively for our group starting at 5:30 AM, giving you plenty of time to fuel up before we head out.

2.4 - Points of Interest

Dinning out in Manaus

For your convenience, we have curated a list of excellent dining options located very close to the Mercure Manaus Hotel. Whether you prefer a quick walk or a short Uber ride, these restaurants offer fantastic food, bilingual-friendly environments, and a comfortable atmosphere for our international guests.

WHEN IN MANAUS *(cont.)*

- **Terra & Mar**

  Located literally right across the street from your hotel. This spacious, glass-walled restaurant offers a fantastic blend of Portuguese and Argentine cuisine, making it an easy and reliable choice for your first night in the city.

  • **Cuisine:** International (Portuguese & Argentine Steakhouse)
  • **Average Price:** R$ 120 – R$ 200 per person
  • **Rating:** 4.5 out of 5
  • **Distance:** Less than 2 minutes (walking)

- **Choupana**

  A charming spot just a few blocks down the avenue, offering a very authentic and cozy introduction to local flavors. The rustic exposed-brick ambiance perfectly complements their traditional dishes, making it a great place to try local fish without traveling far.

  • **Cuisine:** Traditional Amazonian
  • **Average Price:** R$ 80 – R$ 150 per person
  • **Rating:** 4.6 out of 5
  • **Distance:** 3 to 5 minutes (walking)

- **Felicori**

  Provides a more sophisticated, fine-dining experience in the nearby Adrianópolis neighborhood. It is highly praised for its contemporary dishes, exceptional seafood, and elegant environment, making it ideal for a celebratory dinner before heading to the lodge.

  • **Cuisine:** Contemporary / Fine Dining
  • **Average Price:** R$ 150 – R$ 250 per person
  • **Rating:** 4.7 out of 5
  • **Distance:** 10 minutes (Walking) or 3 minutes (Uber/taxi)

- **Banzeiro**

  An absolute must-visit and the crown jewel of high-end Amazonian gastronomy in the city. Known for its bilingual service and spectacular regional dishes — especially the famous Tambaqui fish ribs — it perfectly elevates local Amazonian ingredients to a world-class standard.

  • **Cuisine:** High-end Regional Amazonian
  • **Average Price:** R$ 120 – R$ 220 per person
  • **Rating:** 4.7 out of 5
  • **Distance:** 5 to 7 minutes (Uber/taxi)

WHEN IN MANAUS *(cont.)*

- **Barollo**

A fantastic option if you are in the mood for varied gourmet dishes and an extensive fine wine list. The sophisticated yet relaxed atmosphere, often accompanied by live jazz, provides a wonderful setting to unwind and enjoy a premium culinary experience.

- **Cuisine:** Varied Gourmet / International & Wine Bar
- **Average Price:** R$ 150 – R$ 250 per person
- **Rating:** 4.7 out of 5
- **Distance:** 8 to 10 minutes (Uber/taxi)

- **La Parrilla Gril**

Delivers a fantastic Brazilian barbecue experience in an unpretentious, welcoming environment. If you want to enjoy high-quality grilled meats, picanha, and classic steakhouse sides, this is a highly recommended and safe stop for international meat lovers.

- **Cuisine:** Brazilian Barbecue & Steakhouse
- **Average Price:** R$ 100 – R$ 180 per person
- **Rating:** 4.7 out of 5
- **Distance:** 10 to 15 minutes (Uber/taxi)

Need more gear?

In Manaus we recommend exploring the **Sucuri Pesca e Aventura**, the most premium and well-stocked tackle shop in the city. Located very close to your hotel, it is the absolute best place to find high-end outdoor clothing (UPF shirts, buffs), dry bags, pliers, and a massive selection of conventional Amazonian fishing gear.

- **Location:** Av. Mário Ypiranga, nº 1400, store 14 (inside Manauara Shopping).
- **Distance from Mercure Hotel:** 5 to 8 minutes (Uber) or a short walk.

Note for Fly Anglers:
While Manaus is home to world-class conventional tackle shops like Sucuri, fly fishing remains a highly specialized niche in Brazil. Finding fly-specific gear (such as fly rods, tropical lines, or flies) might be challenging in physical stores.

3. CHARTER FLIGHT

3.1 - Weight Limits

The charter flight company limits are:

- ***33 lbs (15 kg) for checked luggage***
- ***6.5 lbs (3 kg) for carry-on items***

Please be aware that the official weighing at the airport is done using the metric system.

3.2 - Estimated Departure & Arrival Times (GMT -4)

From Manaus to the lodge

- Estimated departure time: **7:30 AM**
- Estimated arrival time: **10:00 AM**

From the lodge back to Manaus

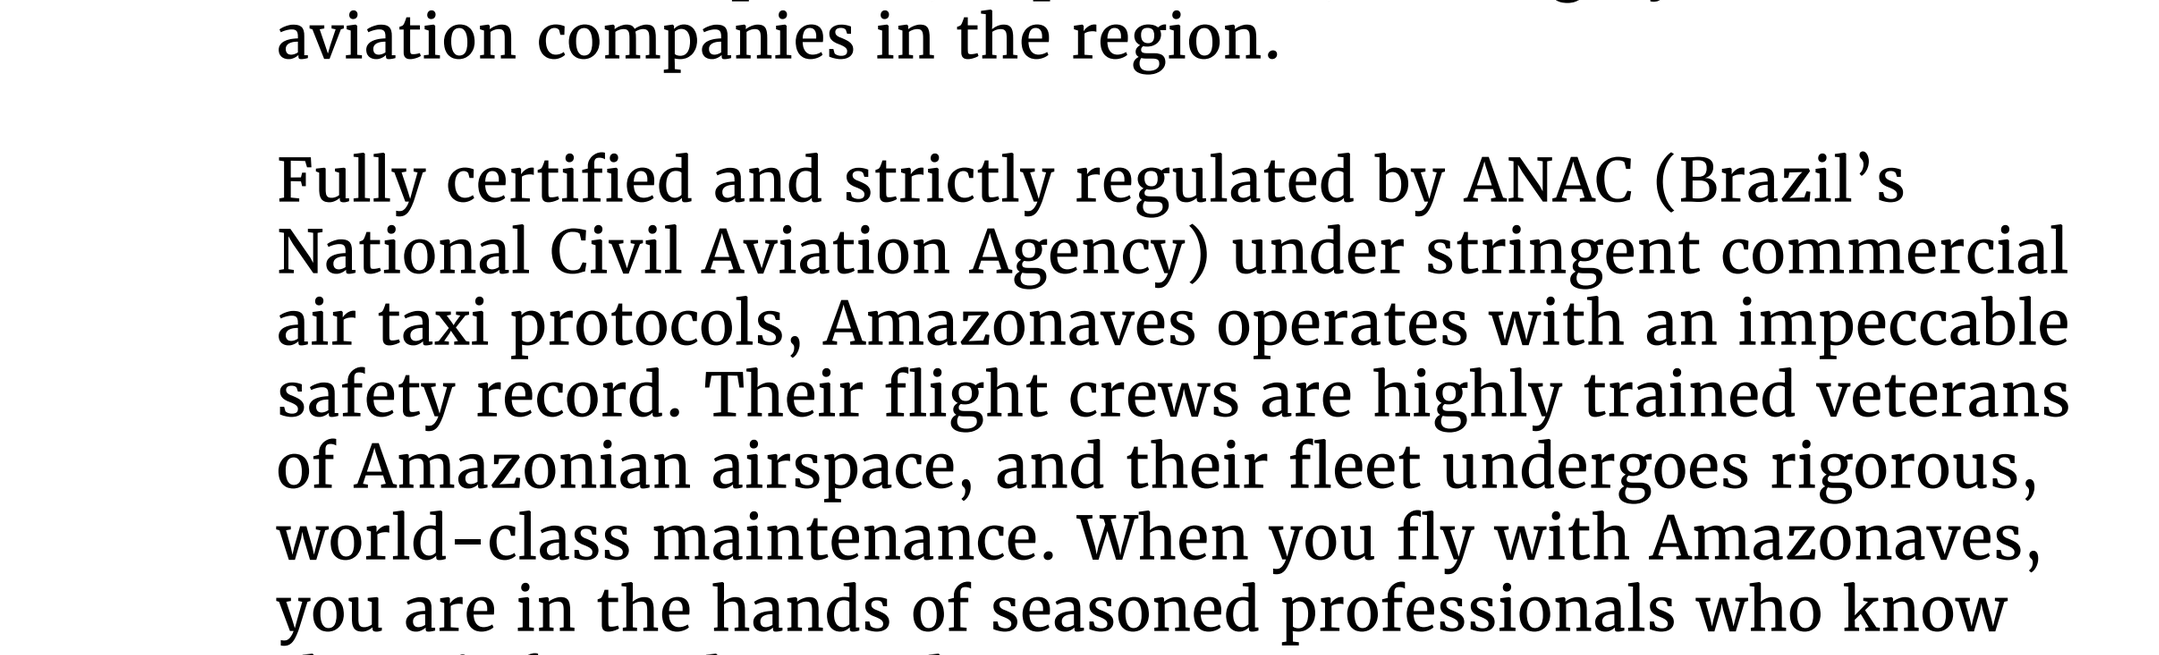

- Estimated departure time: **11:00 AM**
- Estimated arrival time: **01:30 PM**

3.3 - About the Airplanes & Amazonaves

Amazonaves

For your journey into the secluded heart of the Amazon, your safety and peace of mind are our absolute priorities. All our charter flights are operated by **Amazonaves Táxi Aéreo**, one of the most respected, experienced, and highly credentialed aviation companies in the region.

Fully certified and strictly regulated by ANAC (Brazil's National Civil Aviation Agency) under stringent commercial air taxi protocols, Amazonaves operates with an impeccable safety record. Their flight crews are highly trained veterans of Amazonian airspace, and their fleet undergoes rigorous, world-class maintenance. When you fly with Amazonaves, you are in the hands of seasoned professionals who know the rainforest better than anyone.

CHARTER FLIGHT *(cont.)*

The airplane

You will fly aboard the **CESSNA Grand Caravan EX** – powered by the legendary **Pratt & Whitney PT6A** engine, known worldwide for its extraordinary reliability and globally recognized as the absolute gold standard for remote aviation.

The aircraft comfortably accommodates up to 9 passengers, alongside a highly experienced Captain and Co-pilot (2 crew members).

4. AT THE LODGE

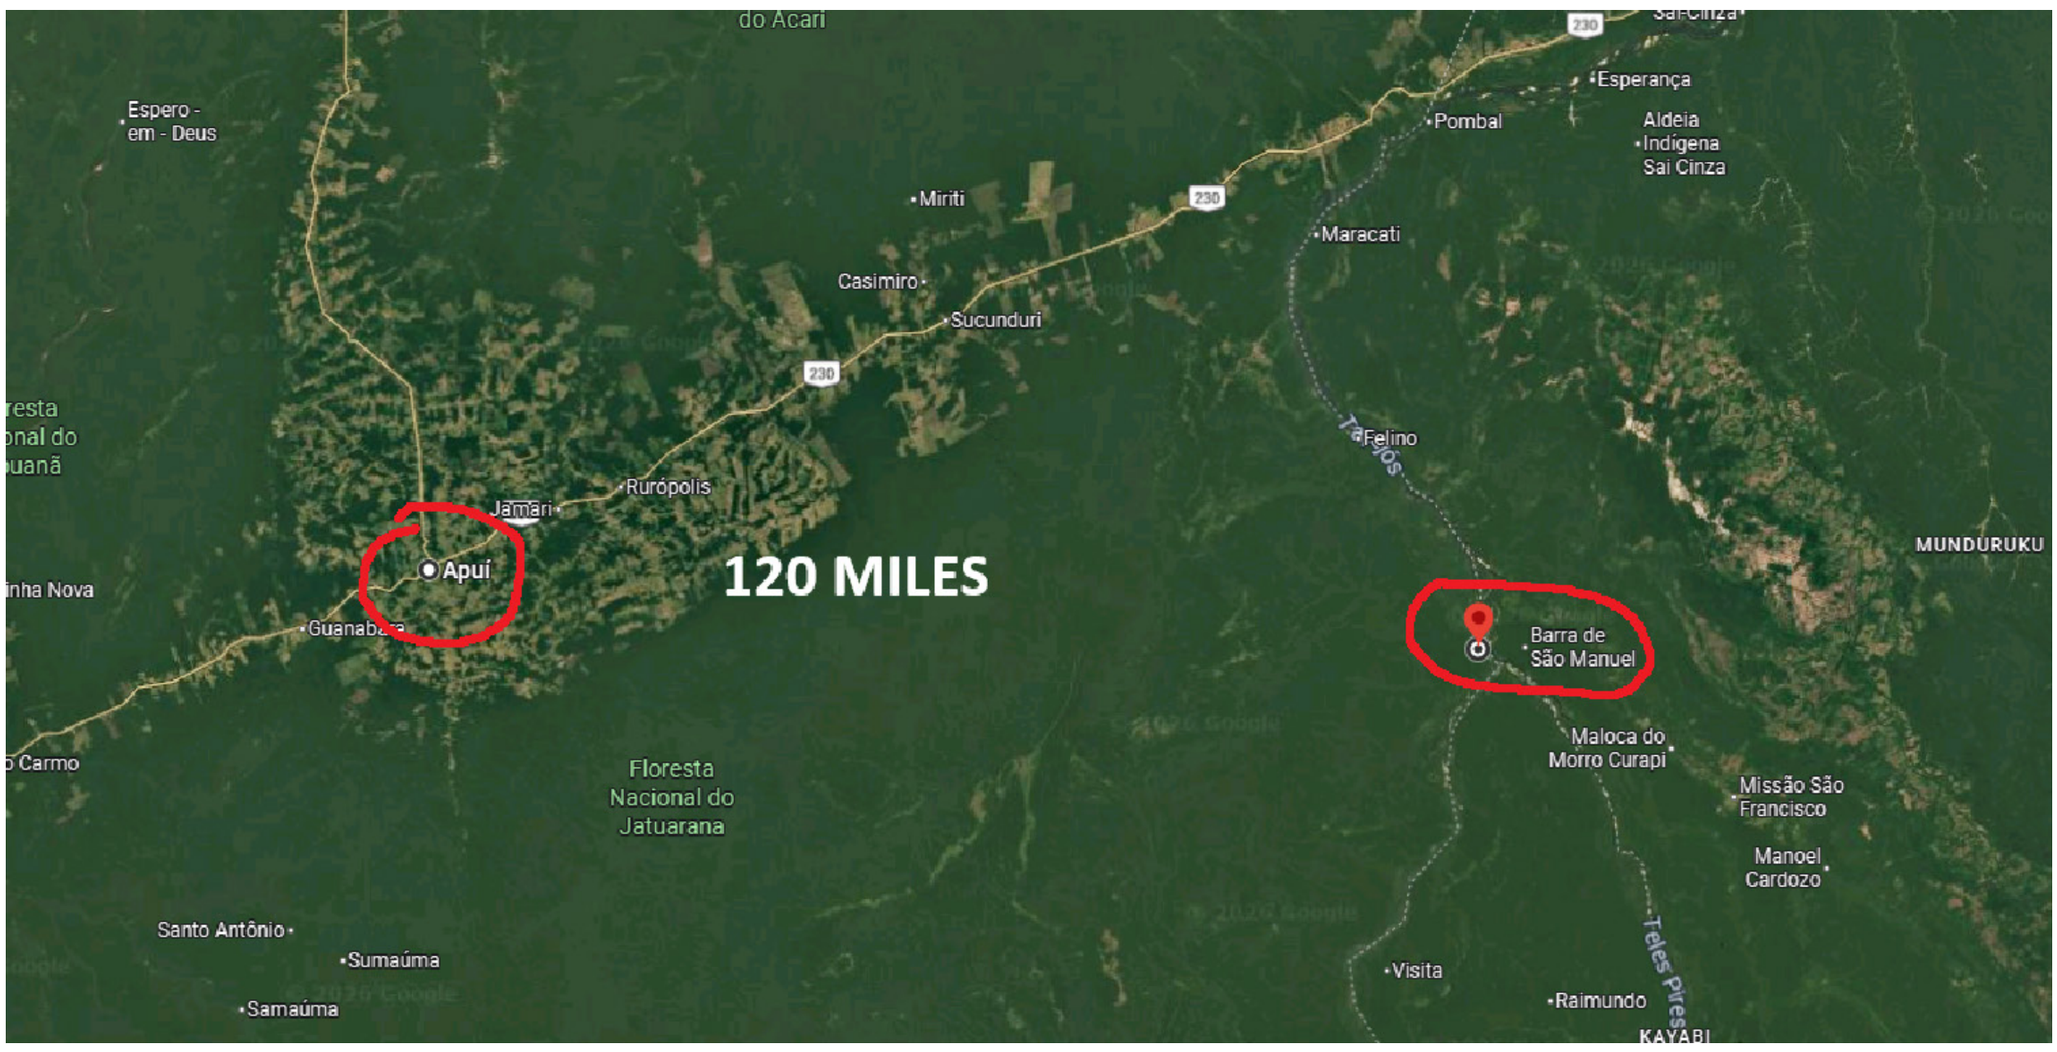

4.1 - Lodge's Location

The lodge is located in an extremely remote area (coordinates: **-7.326157, -58.172168**), precisely at the intersection of three states: Pará, Amazonas, and Mato Grosso.

Nearest towns

The closest towns are Jacareacanga and Apuí, but make no mistake: being the nearest does not mean they are close. Apuí, for instance, sits 120 miles away. Aside from flying, the only way to reach the lodge from Apuí involves a grueling drive in a 4x4 truck (often taking several hours depending on the unpaved road conditions), followed by another 4 to 5 hours navigating up the Tapajós River.

4.2 - Common Areas & Infrastructure

Ecolodge da Barra features a modern, comfortable, and luxurious concept, offering complete infrastructure, air-conditioned environments, and an international-standard level of service and suites—while never losing sight of our commitment and responsibility to environmental conservation and our respect for the central role of local communities.

Arrival & the floating deck

After landing at our private airstrip and a brief boat ride, you will step directly onto our floating deck. This area quickly becomes a guest favorite. It features an outdoor bar, the opportunity to cast a line right off the deck, and serves as the venue for our special parrilla (barbecue) on your final evening with us.

Tackle preparation area

Situated on the porch between the floating deck and the main lobby, we have designed a dedicated tackle preparation area. Complete with secure rod racks and individual workbenches, it offers a comfortable and organized space to rig and tune your gear before heading out on the water.

The main lobby

The ground floor is the social heart of the lodge. Through the main lobby, you will have access to our exclusive lodge shop, a fully stocked American-style bar, our main restaurant, a comfortable TV and game room, and two guest restrooms.

Electricity & adapters

Please be aware that the entire lodge operates on 220V power, and all electrical outlets use the modern Brazilian 3-pin standard (Type N). We highly recommend bringing a universal travel adapter. Additionally, please verify that your essential electronics (such as phone chargers and camera batteries) are dual-voltage (110V–240V) before plugging them in to avoid damage.

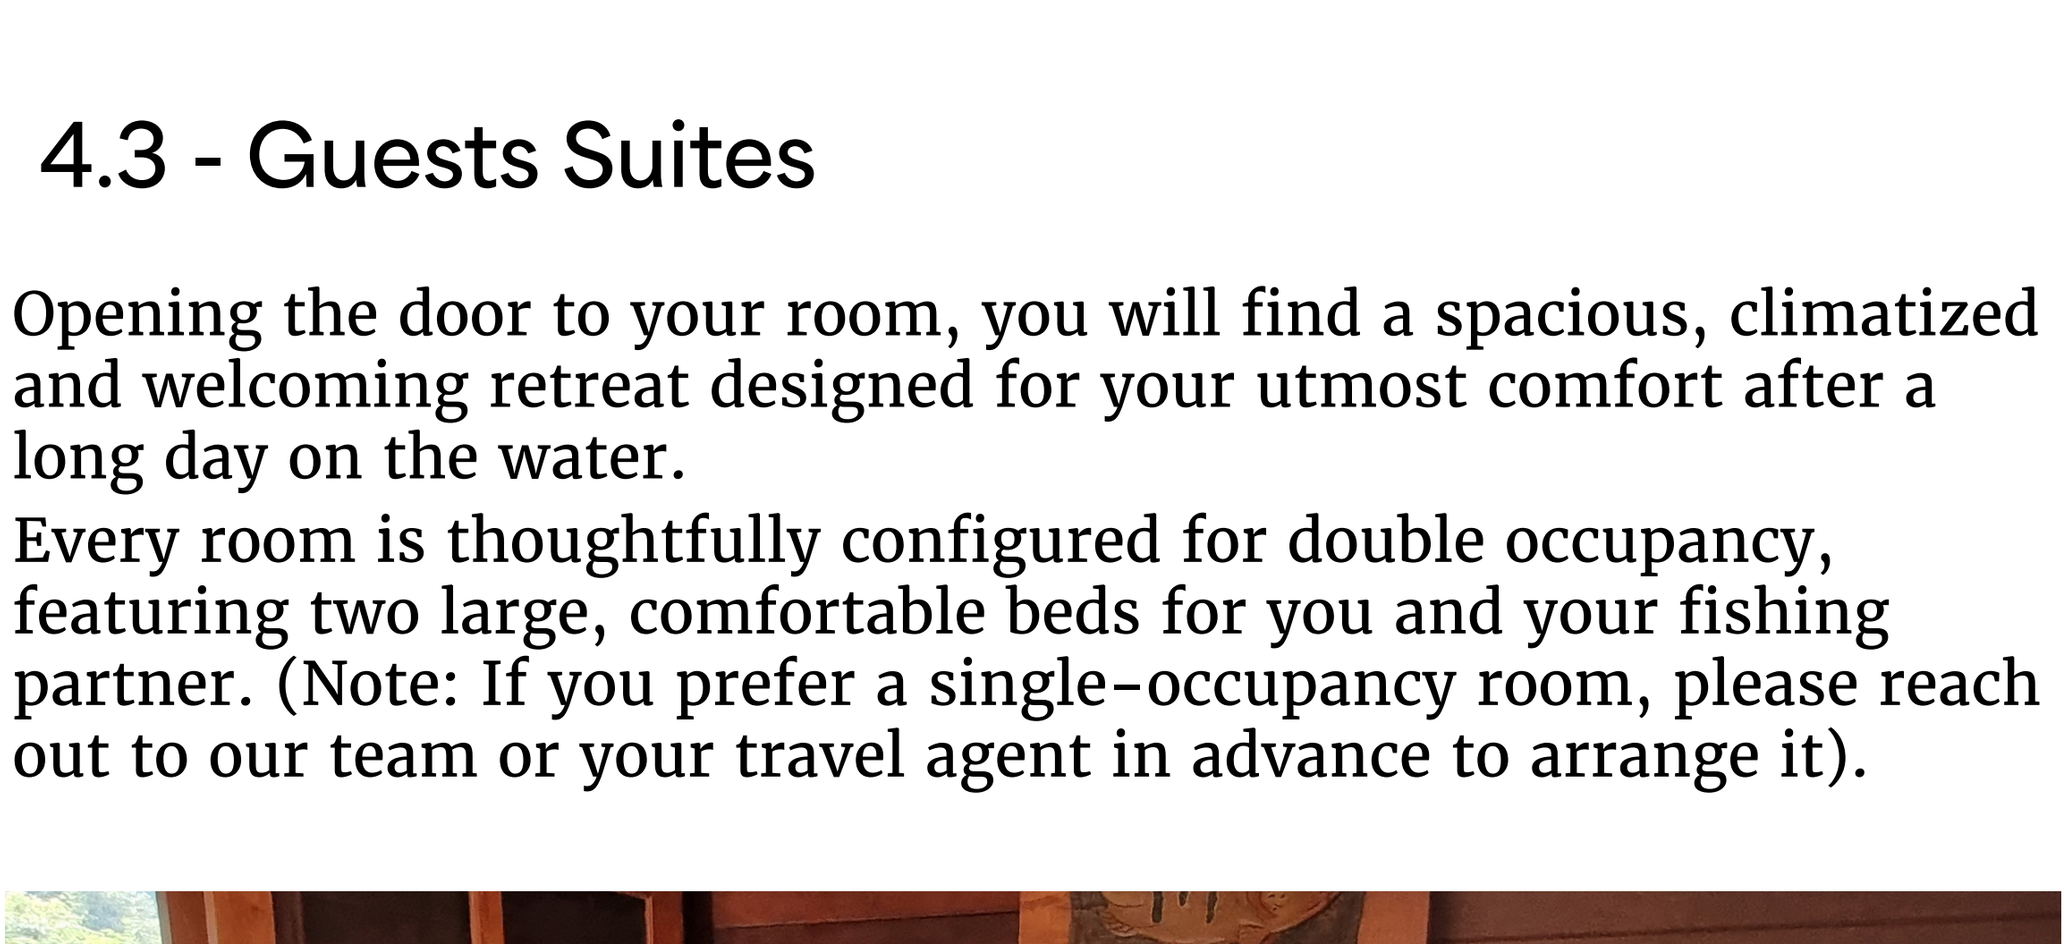

Wi-Fi & internet

Complimentary Starlink Wi-Fi is available throughout the lodge, covering all guest accommodations and common areas.

4.3 - Guests Suites

Opening the door to your room, you will find a spacious, climatized and welcoming retreat designed for your utmost comfort after a long day on the water.

Every room is thoughtfully configured for double occupancy, featuring two large, comfortable beds for you and your fishing partner. (Note: If you prefer a single-occupancy room, please reach out to our team or your travel agent in advance to arrange it).

Bathroom

Each room includes a private en-suite bathroom equipped with a high-pressure, hot-water shower to help you unwind and recharge. To complete the experience, step out onto your private balcony to take in the serene views of the surrounding Amazonian nature.

Laundry baskets

You will find two green laundry baskets in your room. At the end of each day, simply place your clothing in a basket for our daily laundry service. To help our staff return everything correctly, we kindly ask that you and your fishing partner use separate baskets.

4.4 - Daily schedule

Breakfast

Breakfast is served in the main restaurant starting at 5:00 AM. During this time, you will also find a selection of quick snacks and sandwiches to take with you on the skiffs to enjoy throughout the day. Please feel free to request as many sandwiches as you like for your time on the water.

Beverages at the skiff

Although our coolers come with a standard setup, you can easily customize them to your liking. Want to swap all the sodas for extra water? No problem! Just let your guide know during or before breakfast, and they will arrange it for you.

Lunch

We know some anglers want to maximize every second on the water, while others prefer a more relaxed pace. To accommodate everyone, we offer two different lunch options:

- **Stay on the water:** Enjoy a packed lunch on the skiff or on a remote shoreline to keep fishing.
- **Return to the lodge:** Head back for a comfortable break and a hot meal at the restaurant before returning to the river in the afternoon.

Simply let your guide know your preference before leaving the lodge in the morning—or, even better, at the end of the previous day.

Daily fishing hours

A full day on the water runs from 6:00 AM to 6:00 PM, giving you 12 solid hours to explore the river and maximize your chances.

4.5 - Eating and drinking

Breakfast

Your day begins with a complete breakfast spread designed to fuel your time on the water. The buffet includes fresh seasonal fruits, freshly baked breads, cold cuts, an assortment of cakes and pastries, yogurts, and traditional brewed black coffee.

Lunch & dinner

Our kitchen prepares a varied and carefully curated menu for lunch and dinner, blending local and international flavors. Every main meal is accompanied by delicious, freshly made desserts.

Appetizers & snacks

Whenever you are relaxing at the lodge between meals, you will be treated to a variety of freshly prepared snacks and appetizers.

Dietary restrictions

We gladly accommodate food allergies and special dietary needs. However, you must inform us in advance so our kitchen can prepare accordingly. Please ensure all dietary restrictions are clearly detailed in the "Medical Data and Emergency Contacts" section of your registration form.

All-inclusve beverages & bar service

Complimentary Drink Stations
In the restaurant area, you will find fully stocked refrigerators available for you to help yourself at any time. These offer unlimited access to juices, sodas, still and sparkling water, and at least two different brands of premium beer.

The Lodge Bar
For those looking to unwind after a long day of fishing, our bar service offers a selection of red and white wines, premium spirits, and custom signature cocktails crafted to order by our staff.

4.6 - Tips & Gratuities

Please note that tips and gratuities are **never mandatory**, nor are they automatically included in your package. Tipping is entirely at your personal discretion and should be a direct reflection of your satisfaction with the service provided by our team. If you feel our staff and guides have exceeded your expectations, gratuities are deeply appreciated, but there is absolutely no obligation.

AT THE LODGE *(cont.)*

Fishing guides

For your fishing guide, we recommend a gratuity of $50 to $100 USD per fishing day (totaling $250 to $500 USD for the 5-day package) **at the end of your week**. There is no need to worry about exchanging your currency into Brazilian Reais beforehand. Our guides are accustomed to receiving tips in US Dollars, and the lodge handles the exchange process for them. Ultimately, tipping is always at your personal discretion based on your satisfaction with the experience.

Lodge staff

Tipping the internal lodge staff includes the kitchen, maintenance, housekeeping, and bar teams. If you feel they have provided excellent service and wish to show your appreciation, a tip of around $300 USD per guest for the week is a very fair amount. When pooled together with the tips from other guests, it adds up to a wonderful reward for their hard work behind the scenes.

Important note: Cash only

Please be aware that we do not accept credit or debit cards at the lodge. Because of our remote location, we kindly ask that all gratuities for both your fishing guide and the lodge staff be provided in cash.

5. THE FISHING

5.1 - Skiff Specs

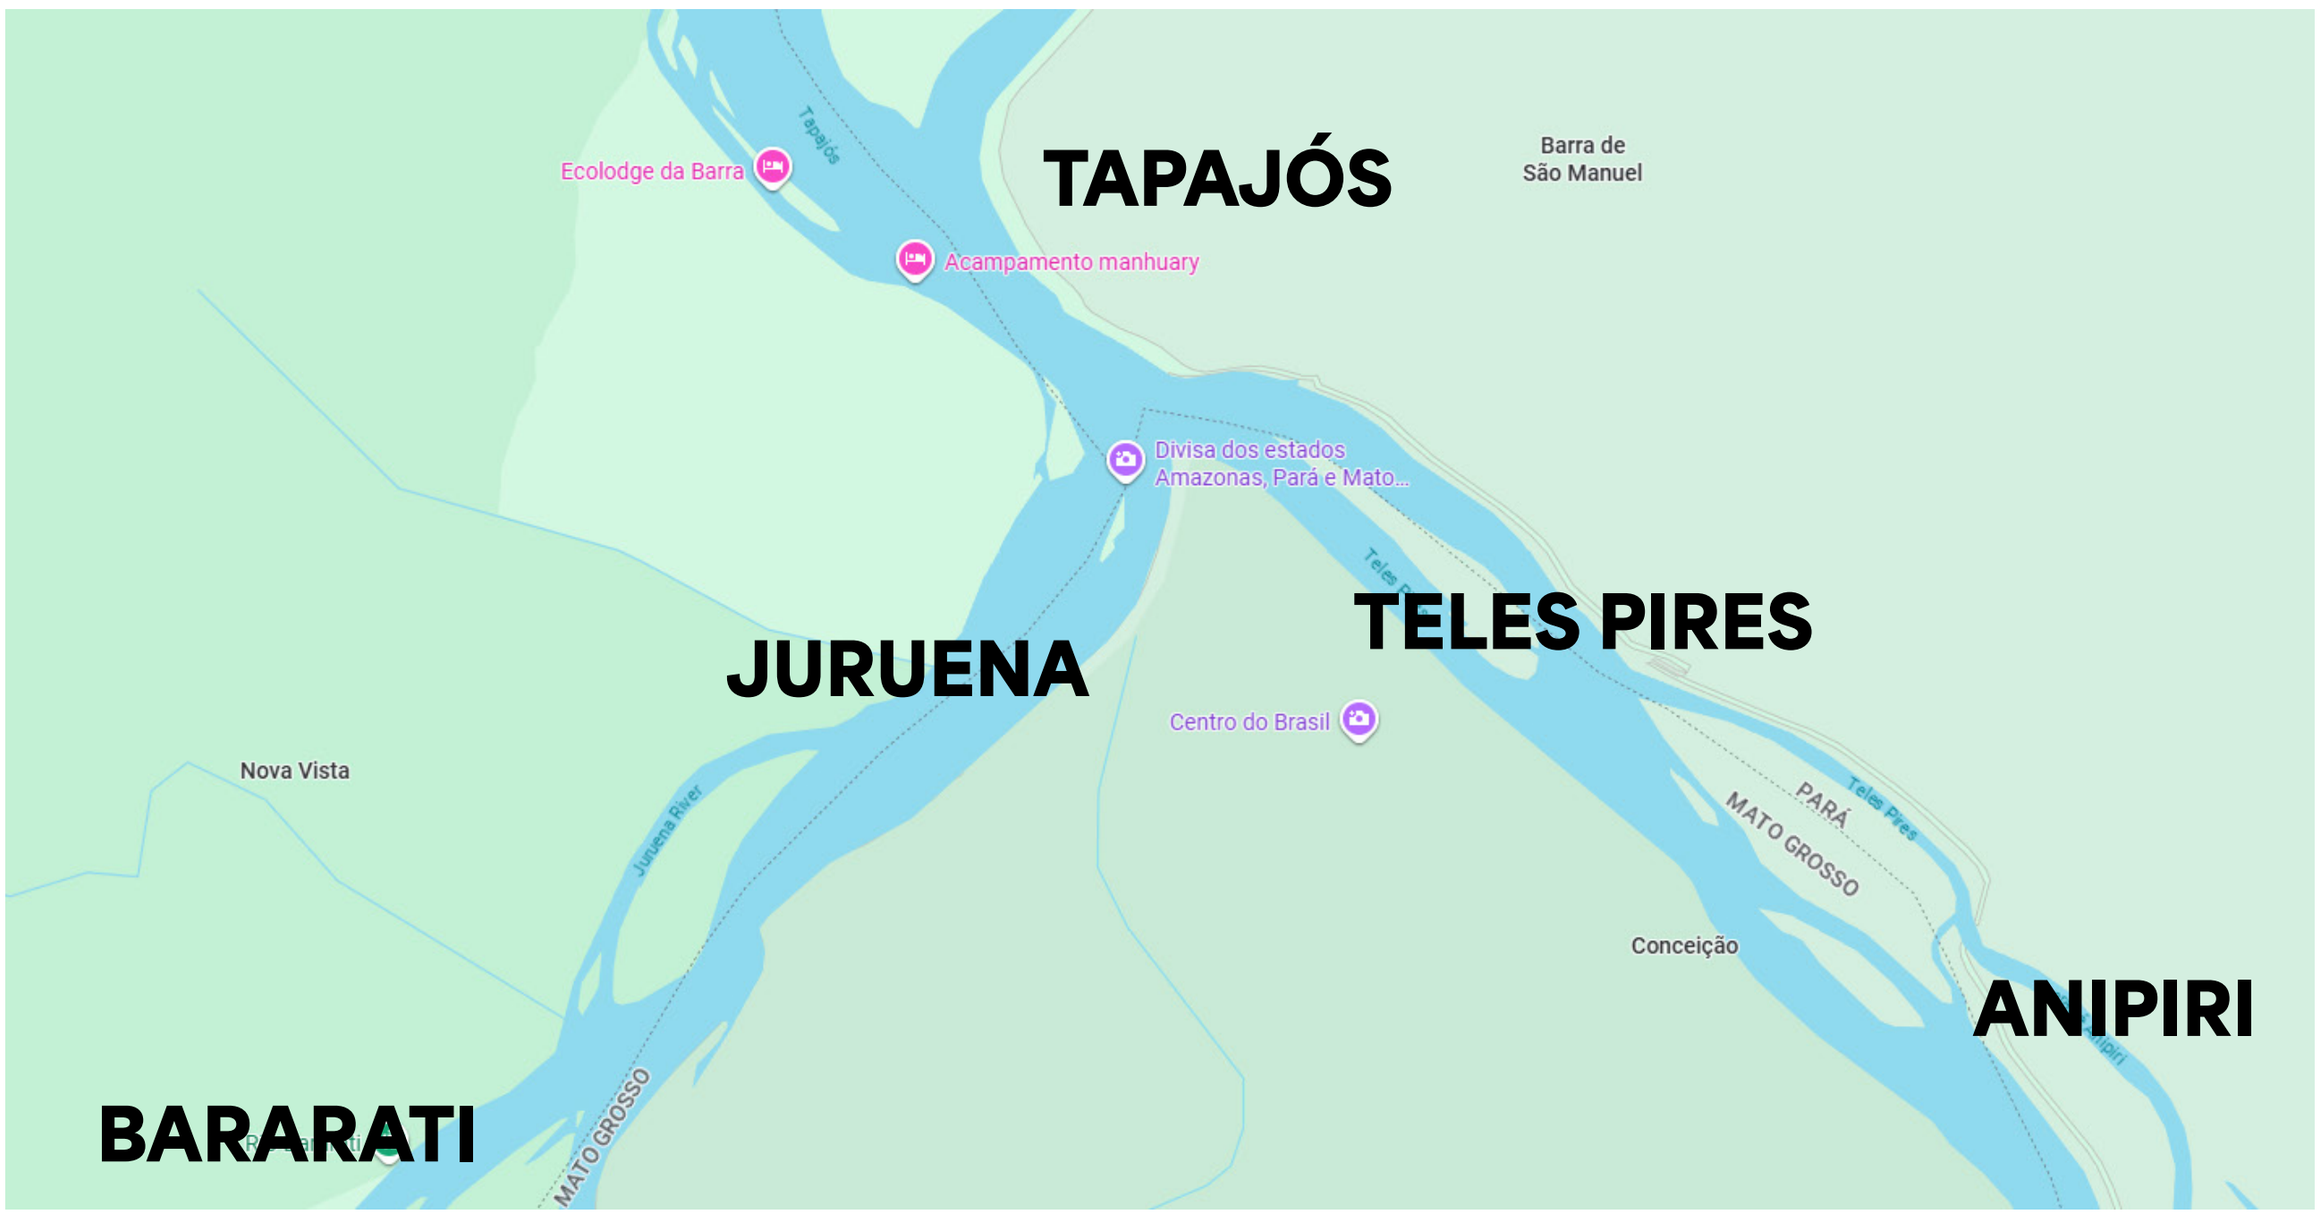

All our skiffs are made of aluminum and can comfortably carry up to 4 people. Each skiff comes equipped with life vests (mandatory while navigating), a hard cooler with food and beverages, a 40hp Yamaha outboard engine, and an electric trolling motor.

5.2 - Rivers & Lakes

Due to our strategic location, you can explore a wide variety of rivers and lakes within a short radius of the lodge. The lodge itself sits right at the headwaters of the Tapajós River, which is formed by the confluence of the Teles Pires and Juruena Rivers.

Navigating up the Juruena, you will reach the Bararati River, while heading up the Teles Pires allows you to explore the Anipiri Stream (*Igarapé Anipiri*).

THE FISHING *(cont.)*

5.3 - Fish Species

One of the things that makes Ecolodge da Barra special is the variety – ***over 20 sport fish species***.

Peacock bass may be the species that first brings many anglers to the Amazon, but they are only part of the experience.

Depending on conditions and location, anglers may encounter species including:

- **Peacock bass**
- **Payara (Vampire Fish)**
- **Bicuda**
- **Arowana**
- **Arapaima**
- **Traíra**
- **Catfish** *(and many others)*

5.4 - Flies

- **Clousers** are a must have for Peacock Bass. You can't go wrong with a **Chartreuse** and **White Clouser Minnow**. You can easily use 4 to 5 of these per angler, per day so bring plenty.
- **Streamers** are effective as well. 4, 5 & 6 inch streamers are great for Peacock Bass. Payara also love a streamer. Those should be in the 6, 7 and 8 inch range. Even bigger if you're comfortable throwing big Flies.
- **Poppers** of all sizes are a must have. Sometimes you're casting big 4 to 5 inch poppers for aggressive Peacock Bass and Payara. Other times you're casting smaller poppers and hoppers at Arowana and smaller peacocks. Every week is different.

Other flies that work are **Terrestrials**, **Gurglers** and **Hoppers**.

5.5 - Fly Tiers

- **Clousers 1/0 to 2/0 hooks**
- **Streamers 2/0 to 5/0 hooks**
- **Poppers Size 1 all the way to 4/0**
- **Terrestrials 1 - 1/0**
- **Gurglers size 1 to 3/0**

Fibers that work best: Using synthetics like Synth yak hair, Slinky fibers, Fuzzy fibers, EP, SF blends.

- **White / Chartreuse** — probably the #1 all-around combination.
- **White / Olive** — natural baitfish look; excellent in clearer water.
- **White / Tan** — another natural, subtle option.
- **Red / Black** — strong silhouette. Payara really love this.
- **Chartreuse / Yellow** — aggressive, bright searching color.
- **Fire Tiger** — chartreuse/yellow/orange; worth having when they want something loud.
- **Black / Purple** — dark silhouette for low light, stained water, or deeper presentations.

5.6 - Fly-Fishing Equipment

Fly rods

7, **8** and **9 weight**. Certain guests bring 6 weights, certain guests bring 10 weights. ***Neither is frowned upon***.

Fly lines

Scientific Anglers Jungle Floating and **intermediate lines** are hard to beat. If you have a **warm water** line that you like, that will work just fine.

Leaders & tippet

3 feet of 40 pound mono leader, 3 feet of 30 pound mono or hard mono tippet (6 foot total leader). This works for most applications. You can also do the same with Fluorocarbon.

Equipments footnotes

For your smaller species, you can use the same as above. If you're fishing small flies, you can do the same as above with 30 and 20 pound lines.

- **Suggested equipment includes:**

Primary Peacock Bass Outfit A quality 7, 8 and/or 9 weight fly rod paired with a durable reel and appropriate tropical fly line.

THE FISHING *(cont.)*

Primary payara rod

9 weight is your best bet. You can definitely go lighter or heavier but **9 is best**. These are toothy fish, so we're typically adding 10 inches of 40-60 pound wire leader.

AFW (American Fishing Wire) in Camo color is a good choice. It's tieable and easy to work with. Floating and Intermediate Jungle line.

Arowana

These fish are strong and aggressive. Small ones are extremely fun on a 7 weight. However, hooking a big Arowana on it won't be so fun. ***8 weight for them is a safe bet.***

Bicuda, traira, pacu

These are all extremely fun on a **7 weight**.

5.7 - Conventional Fishing

While your trip and gear may be entirely focused on fly fishing, the waters surrounding Ecolodge da Barra are also world-renowned for their colossal Amazonian catfish.

If you want to take a break from casting and experience the sheer power of wrestling one of these heavyweight river monsters, you do not need to worry about packing any heavy-duty tackle. We offer fully rigged, premium catfish gear available for rent directly at the lodge. Should you decide to dedicate a few hours or an evening to chasing a giant, simply speak to your fishing guide or the lodge manager.
